

CRUISE PLAN QUEENBOROUGH 2010

HT Allington Sat 12th 1408 hrs
Lock out Allington 1250 hrs tide height 5.6 mtrs.

Travel to Queenborough at approx six knots will take around three hours

Communications are on channel 8 VHF, cruise leader please call Elmhaven members on approach and Strood members on approach.

This is the Swale regatta weekend so if going ashore for food it would be advisable to phone ahead, we have been advised by Swale harbour master that we can use the flat top yellow and grey buoys for mooring.

Trot boat operator is a chap called Roger, he can be contacted on channel 8, trot boat is £1-00 per person each way, mooring fees are £13-00 per night, the all tide landing is £20-00 per night, so if you have more than five people aboard it could be more cost effective to moor on that.

Follow basic Medway navigation at six knots up to Folly point buoy, after this point if you wish you can increase your speed to eight knots.

Once at the mouth of the Swale you will need to round the East Cardinal buoy at Queenborough spit to avoid running aground (the tide will be going out) Q/boro spit 51.25.81 00.43.93

Folly point 51.21.75 00.26.92.

HT Allington Sun 13th 1452 tide height 5.7 mtrs
Lock in to Allington 1322hrs
travelling from Queenborough approx 3 hrs so depart Queenborough 1022hrs.

All tidal predictions are based on Sheerness as standard port.
